Date	11 October 2022
Team ID	**IBM-Project-49447-1660819057**
Project Name	University Admit Eligibility Predictor
Maximum Marks	4 Marks

Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions.

Solution Architecture Diagram:
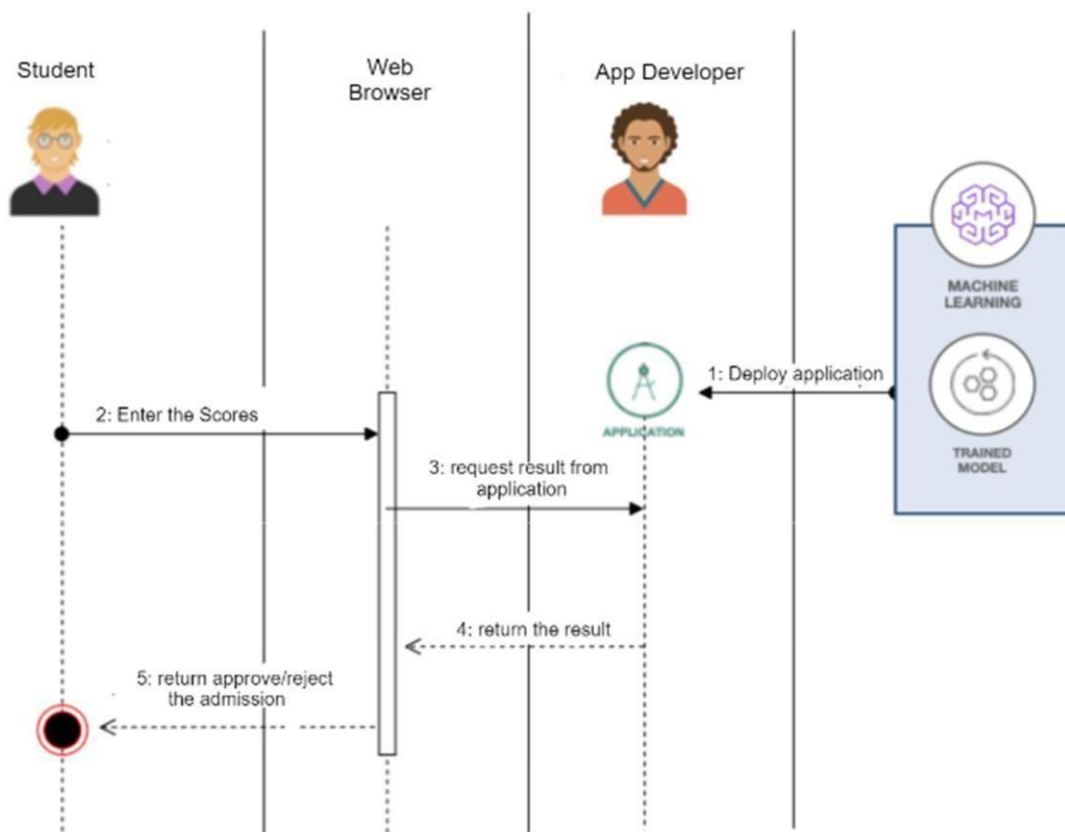

1. Application developer builds a python based app and deploys it.

2. Students can enter the data through a we based application.

3. When Student submits data can be trained in the background and get back the result.

4. Based on the result, the quotes will be sended to the user interface.

5. This result is displayed to the student.
